Subject: New Cadmus Work Assignment - R8 UIC Program

Hello Nancy,

We would like to obtain Cadmus contract support through a work assignment. As you may recall our Dewey-Burdock UIC permitting project had a work assignment last year, and we are currently in need of another one.

For starters I attached the following documents:

1. Performance Work Statement (R8 technical contact Valois Shea)
2. CPOD Work Assignment Review Checklist
3. Immediate Start Memo

I thought I'd send you the attached documents and forms even though we need to add some information. We need the following items from you (let me know if you want me to resubmit with this information, though you can edit via "one drive"):

- We need a work assignment number.
- We need the applicable contract-level PWS paragraphs.

Additional needs/questions:

- For the forthcoming IGCE we will need the worker categories, descriptions and hourly rates. (i.e., P1 through P4).
- Who is the C.O.? (I've inserted Noelle Mills on these doc'ts, but please advise.)
- I was the COR for our work assignment on the Cadmus contract last year and submitted COR nomination and appointment forms last year – do those remain active for this work assignment?
- Paragraph I.C of our work assignment PWS addresses the contract QAPP.

We would like the W.A. start/end dates to be Sep 4, 2018 and March 31, 2019; though we believe the tasks should be completed by Dec 31.

I copied our R8 work assignment technical contact, Valois Shea, as well as Molly Bayer at HQ.
